

With features like 5,500 CFM, ductable to 150 feet with a full load power consumption of a mere 8.5 amps, it's not surprising why the Blaze 400D Turbo boasts the highest performance level in its class. Capable of 3" of static pressure, it comes equipped with Whisper Quiet Operation, 220° F Heat Rise and Air Recirculating Capabilities.

- **Recirculating Capabilities**
- **Input BTU/h: 280,000 to 396,000**
- **5,500 CFM – highest in its class**
- **Ductability: 150ft**
- **Indirect Oil Fired**
- **Beckett Burner**
- **220°F + Heat Rise**
- **Fuel Tank: 70 US Gallons**
- **Whisper Quiet Operation**
- **Running Time: Up to 21 hrs. (Low Fire)**
- **Thermostat Operation**
- **Genysis Primary Controller**
- **Redundant Fail Safe Control System**
- **Digital Panel Mounted Voltmeter**
- **Oil Pressure Gauge, Spin-off Filter**
- **Lifting Bar & Forklift Pockets**
- **Weight: 600 lbs.**
- **Dimensions: 76.7" x 31" x 57.6"**
- **Full Load Amps: 8.5 A**
- **Air Outlets: Two 12"**
- **Inlets: one 12" x 16"**
- **Stainless Steel Heat Exchanger**
