

Billy Goat Industries Inc.
OS500 & OS901 Slice Seeder

OS500 Series Push Over seeder

The OS552 conserves seed with Billy Goat’s exclusive Auto Drop feature by automatically starting or stopping seed drop with bale engagement. The heavy-duty bale controls both seed release and blade engagement. Select the correct drop rate without all the guesswork. The 25-lb capacity front mounted poly seed box won’t rust or dent. On board instructions are conveniently mounted under the lid to help set seed drop rates.

Engine Brand Honda	Reel (in.) 20 Slicing
Weight (lbs.) 179	Length (in.) 55
Width (in.) 26.5 Depth .125 with up to .5 adj. for blade wear	

OS901 Series Hydrostatic Self-propelled Over Seeder

Billy Goat self-propelled over seeder reduces fatigue associated with pushing and features intuitive forward and reverse operator controls. New to the unit is a blade design that reduces thatch and improves blade life due to its sharpened leading edge and attack angle combined with a new foot actuated height adjust that raises and lowers the reel effortlessly, providing more blade depth. The unit is 22" wide with an exclusive 11-blade slicing reel that floats along contours of yards increasing seed to soil contact and improving germination rates. The unit comes standard with a 30 lb. seed box that is generously elevated above the turf to eliminate any clogging that may occur from moisture.

Reel (in.) 22 wide	Number of Blades 11
Weight (lbs.) 323	Length (in.) 58.38
Width (in.) 30.75	Vertical Cutting Depth .125 with up to .5 adj. for blade wear
